

Noncontrolled Prescription Drugs Workgroup

Technical Discussion

December 12, 2022

SUMMARY

The Noncontrolled Prescription Drugs Workgroup (workgroup) convened on December 12, 2022 for a technical discussion of data fields based on standards published by ASAP (American Society for Automation in Pharmacy) and NCPDP (National Council for Prescription Drug Programs). Participants discussed the feasibility of reporting and the clinical and public health utility of variables that could be used to identify the pharmacy which dispensed a medication and the patient who received a dispense. The workgroup will reconvene in January to continue the technical discussion of reporting noncontrolled prescription drug information.
